Investigating and Prosecuting No Body Homicides

Investigating and Prosecuting No Body Homicides

April 8 - 9, 2024 | Sandy, UT

Register

***This training is closed to law enforcement, prosecution,
and related court officials only.
Law enforcement are encouraged to attend with their prosecutors.***

Explore the challenges involved with no body homicide investigations. Most start as missing persons cases; the suspect's head start coupled with the absence of the victim's body leaves gaping holes in the investigation.

Join us to hear from experienced instructors as they provide the framework and tools to build a prosecutable circumstantial case—regardless of the age of the case—from proving the victim is dead using established practices such as victimology, interviews, documents/records/digital footprint to search strategies and best practices in documentation.

Topics include:

- Investigative Framework and the Two-Prong Attack
- Old Case Strategies and Using the Media
- Trial issues—Motions and Trial Prep

Training Location

Sandy City Hall
10000 South Centennial Parkway
Sandy, UT 84070
