

ATF DENVER FIELD DIVISION TRAINING ANNOUNCEMENT

Basic Post Blast Investigative Techniques

This is a basic post blast course designed to teach a systematic method of investigating an explosion scene. The course provides instruction in explosives identification and applications, explosives effects, IED component recognition and evidence collection. This course will be hosted by the ATF Salt Lake City Field Office utilizing National Guard base Camp Williams from **August 19th-22nd**.

The course is comprised of classroom participation, an explosives demonstration and actual investigation of a post blast scene.

Course Topics

- Introduction to explosives
- Introduction to improvised explosive devices (IED)
- Post blast scene processing and forensics
- ATF team concept

Length of Training

32 hours for this basic course. This course will be 4, 8-hour days, Monday through Thursday.

Prerequisites

Applicant must be a full-time public safety official whose primary mission is to investigate bombing incidents and other explosions. Selections are intended to facilitate coordination of agencies in the area of operation where the training is being conducted.

Tuition and Costs

ATF will provide instructors, supplies, training materials and range tools. Lodging and travel expenses will not be covered or reimbursed by ATF.
